BRAND NAME

BahriaConnect (working title)

BRAND TAGLINE / SLOGAN

"Verified help, right in your community."

ONE-SENTENCE BRAND DESCRIPTION (ELEVATOR PITCH)

BahriaConnect is a verified local-services marketplace that connects Bahria Town Karachi residents with management-vetted maids, electricians, plumbers, and other home-service providers, so finding trustworthy help takes minutes instead of endless WhatsApp and Facebook searching.

BRAND STORY (WHY YOU EXIST)

BahriaConnect was born from a simple, everyday frustration: residents needing a maid or a plumber, and workers needing more clients, but no reliable way for the two to find each other beyond scattered WhatsApp groups and word of mouth. BahriaConnect exists to replace that guesswork with a structured, verified system — one where management stands behind every provider, so trust isn't a gamble, it's built into the platform.

PROBLEM YOU SOLVE

- No centralized directory of home-service workers
- Uncertainty about a worker's reliability or experience
- No accountability once a job is done
- Workers struggle to find consistent clients

THE SOLUTION YOU OFFER

A community-verified marketplace where management registers and approves every provider, residents browse standardized profiles with ratings and availability, and every request is tracked from submission to completion.

YOUR TARGET AUDIENCE

Bahria Town Karachi residents who regularly need household or maintenance help — homeowners and families balancing busy schedules, who currently rely on fragmented Facebook and WhatsApp groups and want a faster, safer way to find someone they can actually trust in their home. Secondary audience: community management staff overseeing provider verification and oversight.

BODY

Inter Regular — high legibility for profiles, reviews, statuses

HIGHLIGHT / BADGES

Nunito Bold — friendly, rounded, for "Verified" badges & tags

ICON & PHOTOGRAPHY STYLE

Clean, single-weight line icons for service categories (plumbing, electrical, AC, gardening). Photography: warm, natural-light, real-context shots of homes and tradespeople at work — never staged or corporate-stock feeling. Verification badges use flat, high-contrast iconography for instant recognition.

GRAPHIC ELEMENTS, SHAPES & PATTERNS

Rounded-corner cards (mirroring provider profile cards); a recurring house-shield-checkmark motif for anything "verified"; soft map-pin iconography referencing Bahria Town precincts; subtle dotted-grid texture in backgrounds nodding to structured, organized data
